WORK EXPERIENCES

Full-Stack Web Developer Intern — ISP Billing System

Internship Project | Fusion IT Solution | January 27, 2026 – April 7, 2026

- Developed an ISP billing and customer management system with a customer portal and CMS to manage subscriptions, invoicing, payment tracking, customer accounts, and service applications.
- Implemented role-based access, reporting, and billing workflows, and deployed the system on a Linux server using PHP, MySQL, JavaScript, HTML, and CSS.

Full-Stack Web Developer — AI Recruitment System

Live Demo: <https://ai-recruitment-system-dun.vercel.app>

- Developed a full-stack AI recruitment platform using React, Vite, Node.js, Express.js, REST APIs, JWT authentication, and SQL to manage recruitment workflows for recruiters and candidates.
- Implemented AI-powered candidate matching and ranking, application management, resume uploads, interview scheduling, and recruiter dashboards; deployed the application using Vercel and Render.

Full-Stack Developer — BlueTree Domain Selector

Live Demo: <https://bluetree-domain-selector-khaki.vercel.app>

- Developed an internal platform that automates publisher domain selection for link-building campaigns using configurable weighted scoring, domain ranking, and business rules.
- Implemented CSV import, campaign management, filtering, shortlist generation, exports, persistent campaign storage, and versioned scoring configurations using Next.js, TypeScript, Prisma, PostgreSQL, and Vercel.

Full-Stack Developer — Wood Panel Wall Designer

Live Demo: <https://wood-panel-wall-designer.vercel.app>

- Developed a SaaS platform for managing custom photo-to-wood-panel printing workflows, including a millimeter-accurate drag-and-drop wall designer with resizing, rotation, auto-save, and undo/redo.
- Implemented role-based authentication, secure REST APIs, cloud image uploads, proofing, production management, and approval workflows using Next.js, React, TypeScript, Prisma, PostgreSQL, Supabase, NextAuth, Konva.js, and Tailwind CSS.

Lead Developer / IoT Systems Developer — Real-Time Salt Production Monitoring and Control System

Live Demo: <https://salt-farm-monitoring-dashboard.web.app/>

- Developed a full-stack IoT system for solar salt production that collects environmental sensor data and provides real-time monitoring, cloud synchronization, dashboards, reporting, and analytics using ESP32, React.js, and Firebase.
- Implemented automated control mechanisms for dimmers, fans, and heating components based on sensor thresholds, with responsive dashboards and remote monitoring to support production decisions.

SKILLS

TECHNICAL SKILLS

- Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Responsive Design
- Backend: Node.js, Express.js, PHP, Authentication & Authorization, CRUD Operations
- Databases: MySQL, PostgreSQL, Firebase, Prisma ORM, Database Design, Database Management
- APIs & Integration: REST APIs, API Development, API Integration, JSON, Axios, Third-Party API Integration
- Cloud & Deployment: Vercel, Firebase, Linux (Ubuntu), Apache, Application Deployment, Server Configuration
- AI & Automation: ChatGPT, Claude AI, Claude Code, Prompt Engineering, AI-Assisted Development, Code Generation, Debugging, Refactoring, Workflow Automation
- Tools: Git, GitHub, Supabase, NextAuth, Figma, Canva, Microsoft Excel, CSV Import/Export
- Other: IoT Systems, Embedded Development, Dashboard & KPI Reporting, Problem Solving, Performance Optimization, Version Control

CORE SKILLS

- Full-Stack Web Development • API Integration • Database Design • Cloud Deployment • Responsive Web Development • AI-Assisted Development • Workflow Automation • IoT Development • Debugging & Optimization • Git/GitHub

EDUCATION

- **Bachelor of Science in Computer Engineering**
Batangas State University | 2022–2026

TECHNICAL TRAINING

- AI in Cybersecurity
- Hands-on Encryption: Programming Secure Data with Python
- Blockchain Technology
- Cloud vs. On-Premise
- The Purpose and Importance of EDI in Today's IT World
- Cybersecurity: The Art of Defense

LANGUAGES

- English — Professional Working Proficiency
- Filipino — Native Proficiency
